Andrews Glass Company

3740 NW Boulevard
Vineland, NJ 08360-1635
Contact: Dennis Courtney
800-845-0026
mail@andrews-glass.com
www.andrews-glass.com/IDT

Glass engineering know-how, extensive manufacturing capabilities and skilled artisans provide a unique resource for prototypes, short runs, or mass production of specialty glass products. Andrews fabricates glass components for:

- Analytical Instrument Components
- CO2 Laser Components
- Electro-Optical Envelopes (Vidican, X-Ray, CAT, PET)
- Latex Dipping Forms
- Critical Flow Monitoring
- Ozone Generation
- Photoionization Detector (PID) Lamps
- and Much More

Capabilities Include: Precision Bore Tubing; Grinding and Polishing; Glass-to-Metal Seals; Engineering Assistance and Problem Solving Experience.

Applied Power

111 Summit St.
Brighton, MI 48116
Contact: Ray LeBlanc
810-227-3604
810-229-9356 Fax
rleblanc@applied-power.com
www.applied-power.com

Applied Power is a manufacturer of custom battery assemblies founded in 1974. We offer virtually every battery chemistry available including Alkaline, Carbon Zinc, Lithium Ion, Lithium Polymer, Lithium Nano Phosphate, Lithium Thionyl Chloride, NiCad, NiMH, Sealed Lead Acid, Silver Oxide and Zinc Air.

Our battery cell suppliers are the leading manufacturers in the world:

A123 Systems, B&B, Duracell, Energizer, Leoch, Maxell, Panasonic, Powersonic, Rayovac, Saft, Sanyo, Ultralife, Varta and Xenon.

We also carry products that complement our battery offerings:

Cosel Power Supplies, EDS Battery Chargers, Hantronix Displays, MPD Battery Holders and Star Micronics Audio Devices.

AST Bearings
 115 Main Rd.
 Montville, NJ 07045
 800-526-1250 PH
 973-335-6987 FAX
 sales@astbearings.com
www.astbearings.com

Whether a solution is required for new applications, redesigns or retrofit, AST's high-quality bearings remain unsurpassed. Our products are used in numerous applications:

- Aerospace
- Medical and Dental Equipment
- Computer Peripherals
- Power tools
- X-Y plotters
- Motion Control Systems
- Scientific Miniature and Micro-miniature instrumentation
- Construction and Mining Machinery
- Agricultural and Logging Machinery

We offer **bearings** such as, **miniature** and **instrument**, **bushings**, **rod ends**, **spherical plain**, **linear**, **tapered roller** and more. Our value added services provide engineering design and support, R&D, bearing analysis, sub-assemblies, re-lubrication, inventory management programs. Our knowledgeable sales people can supply all your needs with one call.

Astra Products Inc.
 P.O. Box 479
 Baldwin, NY 11510
 Contact: Mark Bogin
 516-546-4315
 info@astraproducts.com
www.astraproducts.com

Established 30 yrs, ISO certified. Suppliers of high quality protective windows, filters, and coated films for flat panel displays. Clear, neutral density, many standard colors for contrast enhancement. Exclusive N. American source of Clarex brand cell cast acrylic materials. Polycarbonate and extruded acrylic available. Suppliers of nonglare protective windows for lcd, vfd, led, plasma displays. Nonglare, scratch resistant, antireflection, antifog, antibacterial coatings. UV cut filters, NIR filters, diffusers. EMI and ITO filters. Ultra thin acrylic available down to .008" thickness. Custom designed edge light guides. Cut to size and full fabrication available.

Aurora Design & Technology, Inc.
 13575 58th St. N., Ste 129
 Clearwater, FL 33760
 Contact: Dave Landis
 727-538-4138
 Info@AuroraDesignTech.com
 www.AuroraDesignTech.com

Aurora Design & Technology provides the technology industry with high-quality domestic outsourcing at a reasonable cost. We provide expertise in:

- * Optical System Design
- * Mechanical Design
- * Electronic Design
- * Spectroscopic Application Development
- * Software Engineering
- * Embedded System Development
- * System Integration

With Aurora Design & Technology as your outsourcing partner, your company will receive expertise that is trusted by NASA without having to pay a fortune. We provide more than just an outsourcing contact -- we'll take charge of your problems and deliver you solutions that fit your business needs -- on time and on budget.

BrandTech Scientific, Inc.
 11 Bokum Road
 Essex, CT 06426
 Contact: Customer Service
 888-522-2726
 www.brandtech.com

OEM Vacuum Pumps

BrandTech Scientific supplies whisper-quiet, low vibration, oil-free VACUUBRAND vacuum pumps for OEM instrument integration, as well as vacuum pumps for general lab applications. Pumps are continuous-duty rated, with service intervals of 10,000 to 15,000 hours of operation. Service is quick and simple; no tedious pump calibration is needed to restore original performance. VACUUBRAND pumps are available with corrosion-resistant fluoropolymer flowpaths, frequency-controlled motors and 24VDC electrical supply. Electronic vacuum gauges and controllers available.

OEM Plastic Consumables & Components

We also supply custom plastic consumables for instruments, and offer OEM design and manufacturing service for plastic instrumentation components. Wide range of plastics available, from polystyrene to fluoropolymers.

C-Flex Bearing Co., Inc.

104 Industrial Dr.
 Frankfort, NY 13340
 Contact: Joanne
 315-895-7454
 cflex@c-flex.com
www.c-flex.com

In limited rotation applications and high accuracy requirements, or long cycle life expectancies, C-Flex pivot-bearings are free from performance limitations exhibited by other bearings. The C-Flex pivot-bearings utilize flat crossed springs, capsuled in a cylindrical housing, to facilitate rotation with a constant torsional spring rate, while providing a radially and axially stiff structure. The C-Flex bearing can cycle indefinitely without wear or change in performance.

No lubrication required.

Stiction Free.

No backlash.

Tolerant of harsh environments.

Self-centering.

Standard sizes: 1/8"-1" diameter.

Custom designs, special materials can be provided.

Applications include packaging equipment, optical mounts, scanners, position sensors, gimbals, and more.

Chomerics, Division Parker Hannifin Corporation

77 Dragon Court
 Woburn, MA 01801
 Contact: Craig Lazinsky
 781-935-4850
 chomailbox@parker.com
www.chomerics.com

Chomerics is a global leader in development and application of electrically and thermally conductive materials in electronics systems. Chomerics is the first choice in EMI shielding and thermal management solutions for communications, computer, consumer, automotive, military, aerospace, instrumentation and medical electronics markets.

sales@edmundoptics.com
www.edmundoptics.com

Edmund Optics® is a leading producer of optics, imaging, and photonics technology. Supporting the semiconductor, electronics, biomedical, assembly, and manufacturing markets globally, EO's electronic imaging and machine vision solutions have been used in a variety of inspection applications from food to automotive to pharmaceutical. EO's vast offering of lenses, illumination sources, and cameras offer a dynamic choice of application solutions. For customers looking for onsite integration, EO facilitates onsite integration and system design through a select network of Vision Integration Partners. EO's extensive global manufacturing facilities also allow for customer system design and development.

www.fiberguide.com

Staff of engineers, technical sales professionals and experienced production team unites in developing that product specific to your individual application. Design and engineer assemblies using not only our own pure silica core/silica clad, silica core/plastic clad fibers, but borosilicate glass fiber, ESKA plastic optical fiber, fluoride fiber, chalcogenide fiber, erbium-doped fiber and polarization maintaining fiber as well, with widest range of custom and standard endfittings/connectors and outer jackets to tailor product to technical and economic requisites. Design and manufacture cables for SERCOS digital interface and VersaLink industrial automation, and reflection/backscattering probes for measuring specular or diffuse reflection from a surface.

pumps@fmipump.com
www.fmipump.com

Fluid Metering, Inc. has manufactured Precision Dispensers and Metering Pumps for Laboratory, Industrial, Process and OEM applications since 1959.

FMI Pumps feature the patented CeramPump® valveless piston design, having only one moving part and a ceramic and fluoro-carbon fluid path and range from 2 µl per dispense up to 4,600 ml/min and up to 100 psig.

FMI Dispensers have been tested to 84,000, 000 Dispenses with 0.5% Accuracy.

Typical applications include Analytical Instrumentation, Medical Diagnostics, Process Control Instrumentation, Environmental Monitors, Hydrogen Fuel Cell Fluid Control, as well as, a wide variety of Industrial Manufacturing processes.

MicroMo and the FAULHABER Group specialize in the design, assembly and application of high precision, miniature DC drive systems, components, and controls. This includes everything from highly customized DC motion control systems to our versatile, standardized, off-the-shelf products.

MicroMo Electronics, Inc. is ISO 9001 Certified and has a state-of-the-art CNC machining facilities, a 12,000ft² clean room assembly operation, on-line product acceptance of both finished product and incoming goods, and R&D facilities. All applications work is carried out by an in-house engineering staff that travels North America assisting some 3,000 customers in the design, specification of motion applications.

Sierra is one of the most trusted manufacturers of high performance gas mass flow meters and controllers today for nearly any gas, liquid, or steam. By combining superior product quality with a talented global network of flow experts, we consistently deliver the best flow measurement solution for our customers.

Our Thermal Mass, Transit-Time Ultrasonic, Vortex Shedding and Multivariable instruments are available in both standard and customized versions for applications in automotive, industrial, and hazardous environments. Sierra's flow measurement technologies precisely measure or control very low flows of gas down to less than 1 scfm full scale as well as extremely high flows of gas, liquid, and steam.

Experience our passion for flow. Visit us at www.sierrainstruments.com or call us at 800-866-0200.

sales@spellmanhv.com
www.spellmanhv.com

Established in 1947, Spellman High Voltage Electronics Corporation is the world's leading independent manufacturer of high voltage dc power supplies, x-ray generators and Monoblock® x-ray sources. Spellman's ISO9001:2000 certified organization has facilities worldwide. Spellman High Voltage designs and manufactures custom and standard high voltage dc power supplies ranging from 120mW to 150kW with voltages from 250V to 500kV.

When you need high precision, low ripple high voltage instruments delivered quickly, Spellman's Bertan brand of standard rack and bench-top units will meet your highest standards.

Spellman's power supplies are used in applications serving the medical, industrial and scientific communities.

Watson-Marlow Bredel

37 Upton Technology Park
Wilmington, MA 01887
Contact: OEM Division
